AM 30 AUTO
HTP POWER SPRAYER

DISCLAIMER: DUE TO CONSTANT UPGRADATION, FEATURES AND SPECIFICATIONS ARE SUBJECT TO CHANGE WITHOUT NOTICE

BEFORE OPERATING THIS MACHINE,
PLEASE READ THESE INSTRUCTIONS CAREFULLY

ATTENTION !

1. Check every faster and make sure that the sprayer and the engine are installed firmly on the frame.
2. Set the two pulleys in a straight line and the belt in an appropriate tightness.
3. Check whether there is sufficient engine oil and use right fuel.
4. Before starting the engine, check both the on/off switches of engine and carburetor.
5. Affix the suction hose to the inlet of the sprayer. Leave the filter of suction hose 20cm far from the bottom of the water tank in order to prolong the life of the sprayer.
6. Make sure that the water supply is sufficient enough to help the pump reach its working pressure.
7. Affix spray hose and spray gun.
8. Open the exhaust cock then before starting the engine in order to release the air in the pump. Before using spray gun or spraying, assure the circulation of water in the pump functions properly.
9. To prolong the life of the pump, do operate the machine according to its specific pressure. Adjust the pressure clockwise switching the adjustable valve.
10. In order to avoid any damage of packing and the pump, shut off the engine when temporarily stop operating the unit for more than 5 minutes.
11. Renew oil in the pump after using for the first 10-15hours. Renew oil in the pump after the use of pump for every 70hours. Please make sure the oil is in usable condition before operating.
12. Drain the sludge before renew new oil.
13. Screw the nut before refilling the #30-#40 oil then refill the oil up to the level of 213 of the oil window.
14. Always fill the grease cup with grease. Twist the grease cup twice every 2 spraying hour.
15. After finishing spraying, loose the pressure regulator handle and operate the sprayer with fresh water to clean out the remaining chemicals.
16. Do not direct the jet of water aiming at people.
17. Operation carefully, the engine working temperature is very hot.
18. Do not tough the pulleys and belts when sprayer running at high revolution.

TROUBLE SHOOTING

1. Installity of working pressure and water supply:

A. Check whether the suction hose leaks or sticks.

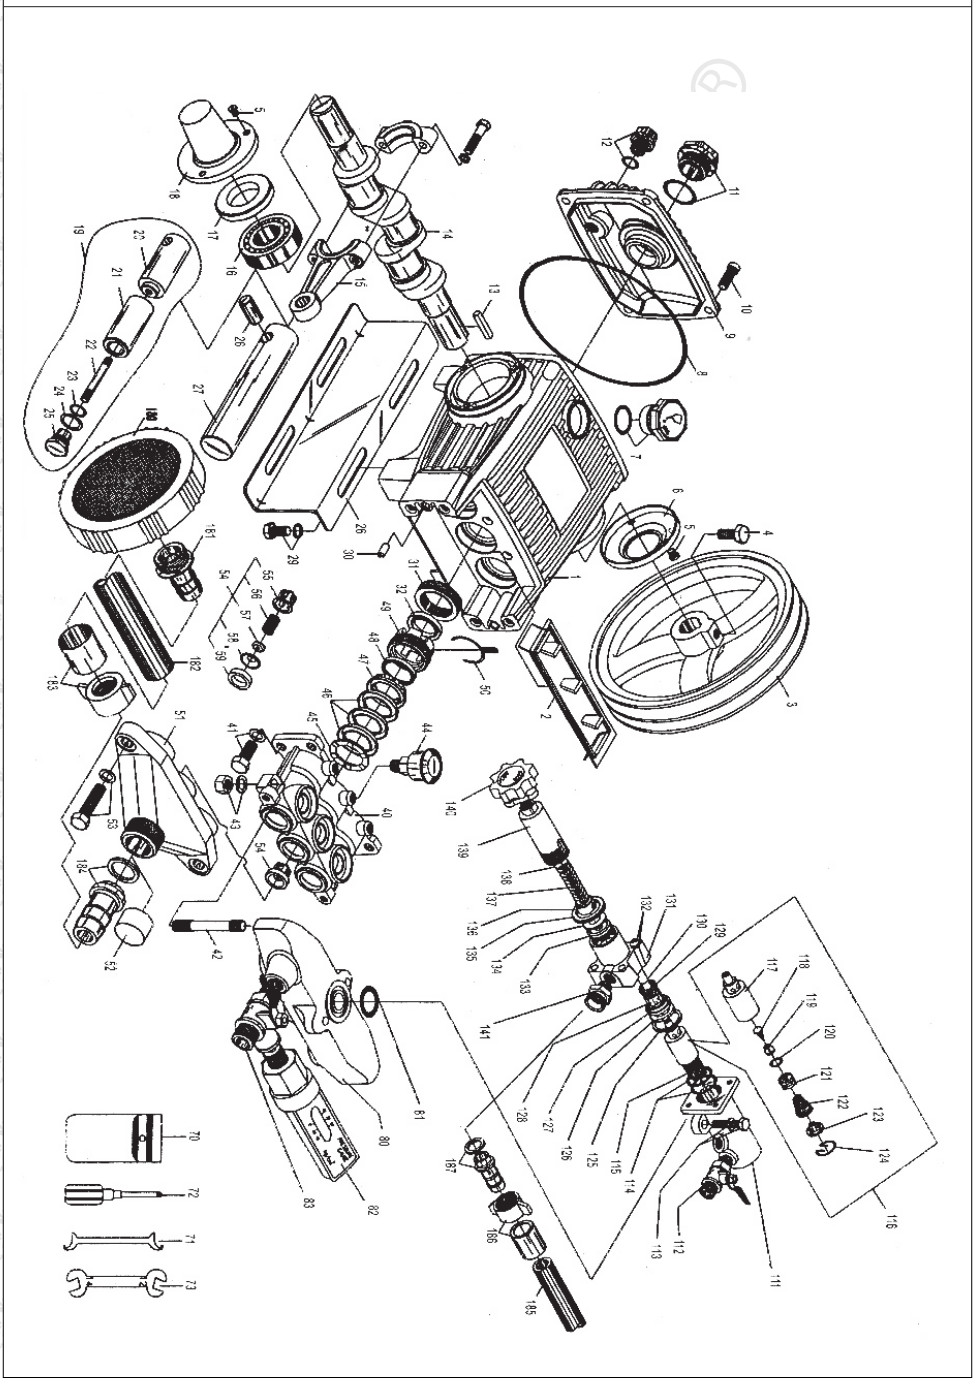

B. Open the ball cock to release the surplus air.

C. Remove the water inlet cover to check if the valve asst' are stuck or damaged.

TECHNICAL SPECIFICATION

AM 30 AUTO SPRAYER	
Plunger diaxstroke	3 x 30 x 20 mm
Plunger Length	140 mm
Spraying Pressure	20 - 40 kg/cm^2
Suction Volume	21-42 L / Min
Speed	500-1200 rpm
Mating Power	4-5.5 HP
Net weight	12 Kg
Dimension	42 x 31 x 35 cm

INSPECTION & MAINTENANCE

For safety use, make sure the machine is cleaned every three-months. Before working, make sure to inspect the filter and the nozzle,and ensure there is no impurity. After working, make sure there is no water in the pump and the hose.

If the machine needs to be repaired in the guarantee period, please return the machine to the shop. You need to provide the certificate of purchase in order to repair or get the substitute.

Before Packing, the machine should be cleaned, then use closed packaging, packaging should be firm. Store the machine in dry place.

For transportation safety. The machine should comply with ISTA.

Meaning of crossed - out wheeled dustbin:

Do not dispose of electrical machines as unsorted municipal waste, use separate collection facilities.

If electrical machines are disposed of in landfills or dumps, hazardous substances can leak into the groundwater and get into the food chain, damaging your health and well-being.

When replacing old machines with new ones, the retailer is legally obligated to take back your old machine for disposals at least free of charge.

Small Maintenance. Big Savings.

Small Maintenance. Big Savings.

Do's & Don'ts

- Always read the instruction manual supplied along with the equipments and understand the correct installation and operating procedures before attempting to use the equipments.

- It is important to use the personal protection equipments such as head helmet with visor, ear defenders, goggles, safety gloves, cut resistant shoes, trousers and jackets while operating potentially dangerous machines.

- Avoid untrained persons using the equipments. Children must not be allowed to handle these equipments.

- Always use genuine spares and accessories in repairs and usage to derive maximum life of the equipments.

- Always keep the equipments in good working condition to minimise loss of output as well as to reduce the pollution and save the environment.

- Do not use the machine within range of persons unless they wear protective clothing.

- Do not operate the machine when fatigued or under the influence of alcohol or drugs.

- When the machine is running, please maintain a constant water supply. Without water circulation will damage the sealing rings of the machine.

- For more query kindly contact for our Service Center/Dealer/ franchise
