MIST BLOWER

Oleo-Mac
our **power**, your **passion**

The EasyLift mixture cap is the most practical solution for fast fluid top-up. The conveniently folding rear handgrip is ergonomic and ensures easy use of the filler caps without the need for tools (**AM 163**).

The booster pump keeps the solution of liquids in the tank thoroughly mixed, increasing and stabilising the delivery flow rate of the product (supplied as standard on the **AM 163** model).

In model **AM 163**, the ULV kit provides optimal atomisation of the sprayed liquid to ensure targeted treatment, eliminating overspray and wastage of product.

In model **AM 163**, the telescoping blower tube has been designed to ensure maximum comfort for the operator. The control handle is adjustable, allowing the longitudinal movement and rotation of the blower tube and handgrip.
