Good Products – Great Values

Dear Sir/Madam,

Thank you for choosing Agrimate product. You are the proud owner of high technology and durable machine. Trust that our franchisee/dealer installed the product and explained you about the usage and service instructions. Please visit our authorised dealer for your future requirement of our other equipments, genuine spares, accessories and service. Service coupons are attached with this manual and you can avail free service to keep your machine fit always to use on demand.

About Ratnagiri

We import and market of high quality of agriculture wide range of equipment's Which we are selling through our authorized franchisee or dealer network. We are in this field from past 20 years serving the former community. For further details, you may please visit our website www.agrimart.in, Tool Free No: 1800-425-3036.

Range of Brands

TECHNICAL PARAMETERS

Model	AMP-139F-4S/AM-K139-4S
Name	Power Sprayer
Engine type	4Stroke petrol
Power	0.7kw/6500rpm
Dsplacement	31cc
Working pressure	2.5Mpa
Flow:	7.4L/min

TROUBLE ANALYSIS

Trouble	Cause	Solution
Can't supply water Unstable pressure	Strainer Assy blocked	Clean Strainer Assy
	Suction Hose leaked	Lock tightly Wing Net or replace Packing
	Redundant air inside pump	Exhaust redundant air inside pump
	Valve damaged or blocked	Eliminate impurities or replace Valve Seal
Cylinder leaked	Grand too loose	Lock tightly Grand (After machine stopped)
	V-packing damaged	Replace V-packing
Pressure shortage	Improper pressure adjustment	Adjust adjusting screw to proper pressure
	Belt too loose	Adjust belt to moderate tension
	High pressure pipe leaked	Check, repair, or replace high pressure pipe
	Valve or valve seat damaged	Replace valve or valve seat
Leaked oil	Oil seal damaged, unlocked tightly	Lock tightly or replace relevant oil seal
Temperature too high	No lubricating oil or too dirty	Add grease on time, replace clean lubricating oil
	Pressure or velocity too high	Adjust to proper pressure or velocity

We reserve the right for revision without further notice !

TROUBLE SHOOTING

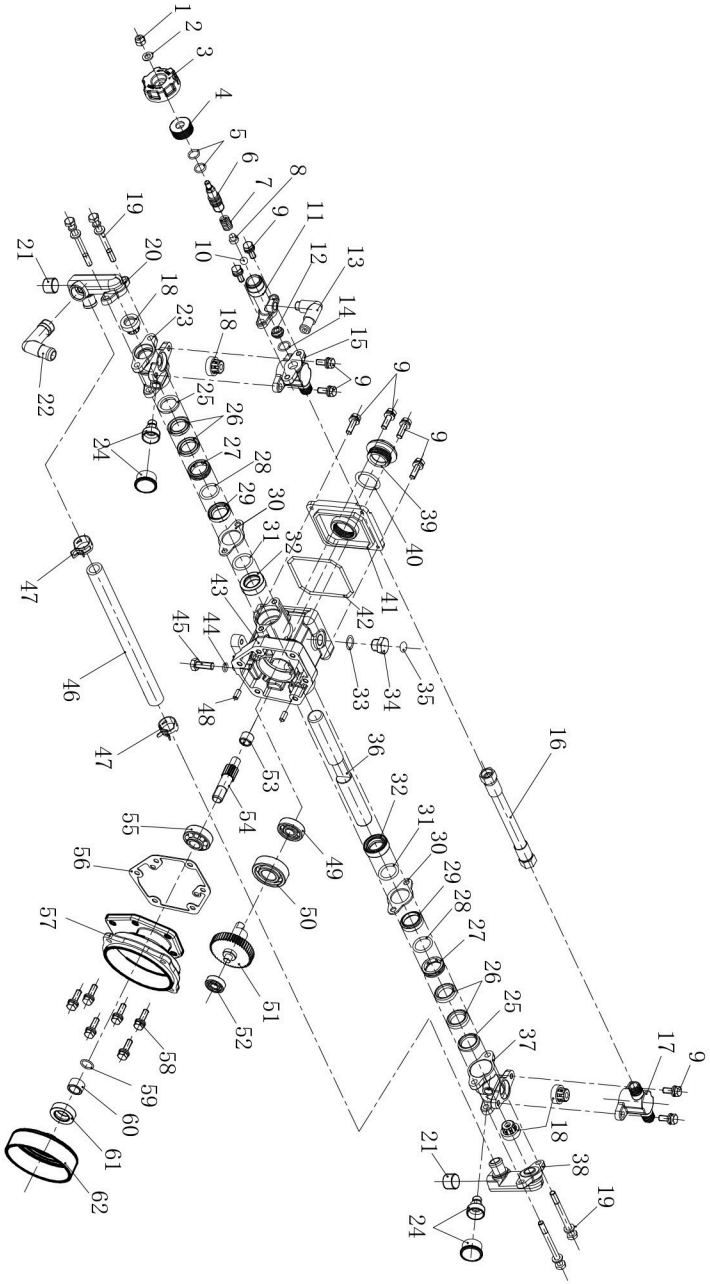

1. Fail to start
   - Oil switch is not turned on
   - Gasoline is mixed with water, replace it
   - The ignition plug has accumulated carbon or has been broken
   - Poor contact of the high voltage wire with the spark plug

2. The engine can start, but can't run fast
   - The choke is either open or closed fully
   - The ratio of engine oil and the gasoline is normal or not
   - May be there is water in gasoline

3. The gasoline engine can run, but has not enough power
   - May be the core of the air filter is blocked by dust
   - Maybe the cylinder exhaust and the muffler are blocked by accumulated carbon
   - The piston, the piston rings and cylinder have been badly worn out
   - May be the gasoline filter is blocked by dust
   - The body or the top of the shaft has oil leakage and air leakage

4. The gasoline engine stops suddenly when running
   - Run out of the gasoline
   - The high voltage wire drops
   - The ignition plug has accumulated carbon or has been broken
   - The gasoline filter is blocked by dust
   - Maybe there is water in the gasoline
   - The air hole of the tank lid is blocked by dust

INSPECTION & MAINTENANCE

For safety use, make sure the machine is cleaned every three-months. Before working, make sure to inspect the filter and the nozzle,and ensure there is no impurity. After working, make sure there is no water in the pump and the hose.

If the machine needs to be repaired in the guarantee period, please return the machine to the shop. You need to provide the certificate of purchase in order to repair or get the substitute.

Before Packing, the machine should be cleaned, then use closed packaging, packaging should be firm. Store the machine in dry place.

For transportation safety. The machine should comply with ISTA.

Meaning of crossed - out wheeled dustbin:

Do not dispose of electrical machines as unsorted municipal waste, use separate collection facilities.

If electrical machines are disposed of in landfills or dumps, hazardous substances can leak into the groundwater and get into the food chain, damaging your health and well-being.

When replacing old machines with new ones, the retailer is legally obligated to take back your old machine for disposals at least free of charge.

Do's & Don'ts

- Always read the instruction manual supplied along with the equipments and understand the correct installation and operating procedures before attempting to use the equipments.
- It is important to use the personal protection equipments such as head helmet with visor, ear defenders, goggles, safety gloves, cut resistant shoes, trousers and jackets while operating potentially dangerous machines.
- Avoid untrained persons using the equipments. Children must not be allowed to handle these equipments.
- Always use genuine spares and accessories in repairs and usage to derive maximum life of the equipments.
- Always keep the equipments in good working condition to minimize loss of output as well as to reduce the pollution and save the environment.
- Do not use the machine within range of persons unless they wear protective clothing.
- Do not operate the machine when fatigued or under the influence of alcohol or drugs.
- For more query kindly contact for our Service Center/Dealer/ franchise
