AGRIMATE GASOLINE WATER PUMP

AM-WP-20FX ☐ AM-WP-30FX ☐

DESCLAIMER : DUE TO CONTANT UPGRADATION FEATURES & SPECIFICATIONS ARE SELECT TO CHANGE WITHOUT NOTICE

BEFORE OPERATING THIS MACHINE PLEASE READ THIS INSTRUCTIONS MANUAL CAREFULLY

INTRODUCTION

Thank you for choosing the Agrimate Product , You are the proud owner of high technlogy & durable machine. trust that our Franchisee/Dealer installed the product and explained you about the usage & service instructions. Please visit our authorised dealer for your future requirement of our other equipments., genuine spares, accessories & service. Service coupons are attached with this manual & you can avail free service.

About Ratnagiri

We Import & market of high quality of agriculture wide range of equipments which we are selling through our authorised franchisee or dealer network. we are in this feild from past 20years serving the former community. For further details you may visit our website : www.agrimart.in.

TECHNICAL SPECIFICATIONS

Model	AM-WP-20FX	AM-WP-30FX
Engine	168F-2	168F-2
Engine Type	Gasoline Engine	Gasoline Engine
Power	4.8KW	4.8KW
Pump outlet Dia	2”	3”
RPM	3600	3600
MAX. DISCHARGE	35Mtr	60mtr
MAX. HEAD	30(m3/H)	30(m3/H)
SUCTION	7 mtr	7(M)

Preparation before use

1. Choose a flat place to install the gasoline engine firmly.

2. Connect the inlet and outlet pipes.

3. Check whether the bottom valve is leaking.

4. Check the oil and fuel level.

5. Check whether the air filter element is clean.

6. Check whether the water pump is filled with water and whether the exhaust is clean and thorough.

Safety matters

1. Do not use indoors.

2. Keep away from flammable substances.

3. Keep away from fireworks by more than 1 meter (3 feet).

4. When refueling:

Shut off the engine!

No smoking! Do not spill oil

1**. Connect the water pipes**

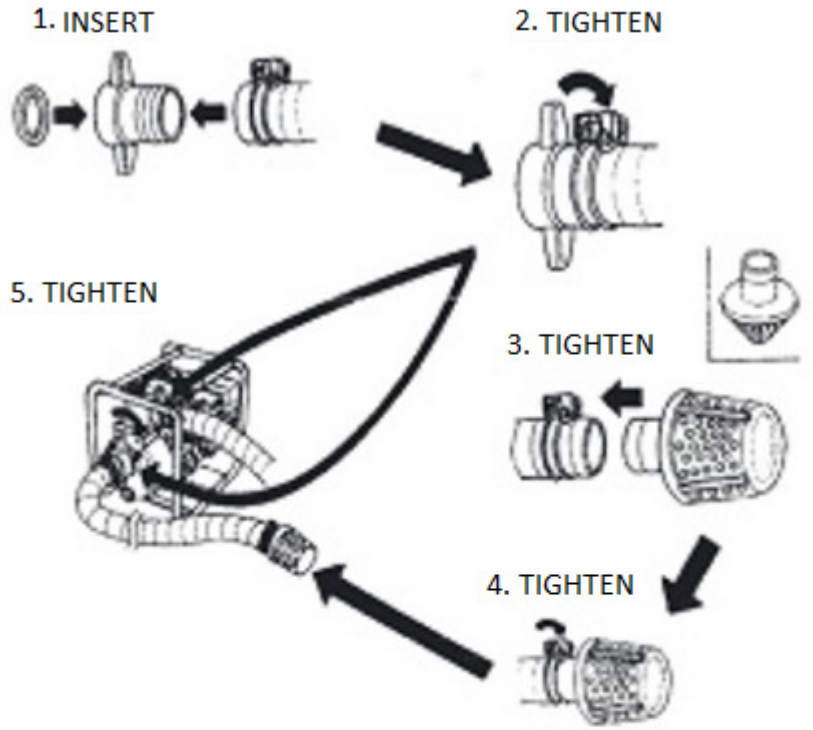

1.1 Connect the water inlet pipe: the water inlet pipe must be continuous, non-foldable structure, the length of the water inlet pipe should not be too long, and the length of the self-priming time is proportional to the length of the water inlet pipe.

1.2 Connect the water outlet pipe: use the output water pipe with the same diameter, the small diameter long pipe increases the flow resistance and reduces the output power of the pump.

Precautions:

1. Before pumping water, install the filter screen at the end of the water inlet pipe. The filter screen can filter out the sundries in the water, so as not to cause blockage and damage the impeller.

2. Tighten the pipe joints and connecting hoop to avoid air leakage and reduce energy absorption. Looseness of the inlet pipe will reduce the performance of the pump.

ADD BOOT WATER

Operation steps

1. Open the fuel valve.

2. Close the choke door.

3. Turn the engine switch to the ON position.

4. Slowly move the throttle lever to one-third of the way from the bottom end.

5. Gently pull up the starter handle until you feel resistance, then pull up quickly.

6. After the engine is warmed up, gradually open the choke.

7. Set the throttle valve at the predetermined speed.

Open the fuel valve to the "ON" position

Throttle to 1/2

Turn the choke to the " CLOSE" position.

The engine switch is in the "ON" position.

Gently pull on the starter cord handle and feel resistance.
Move the choke to the "ON" position & Then pull it hard (note: the handle should be slowly returned to the handle).

Move the choke to the "ON" position

open the throttle. turn off the engine

close the throttle.

Put the engine switch in the "OFF" position.

Maintenance

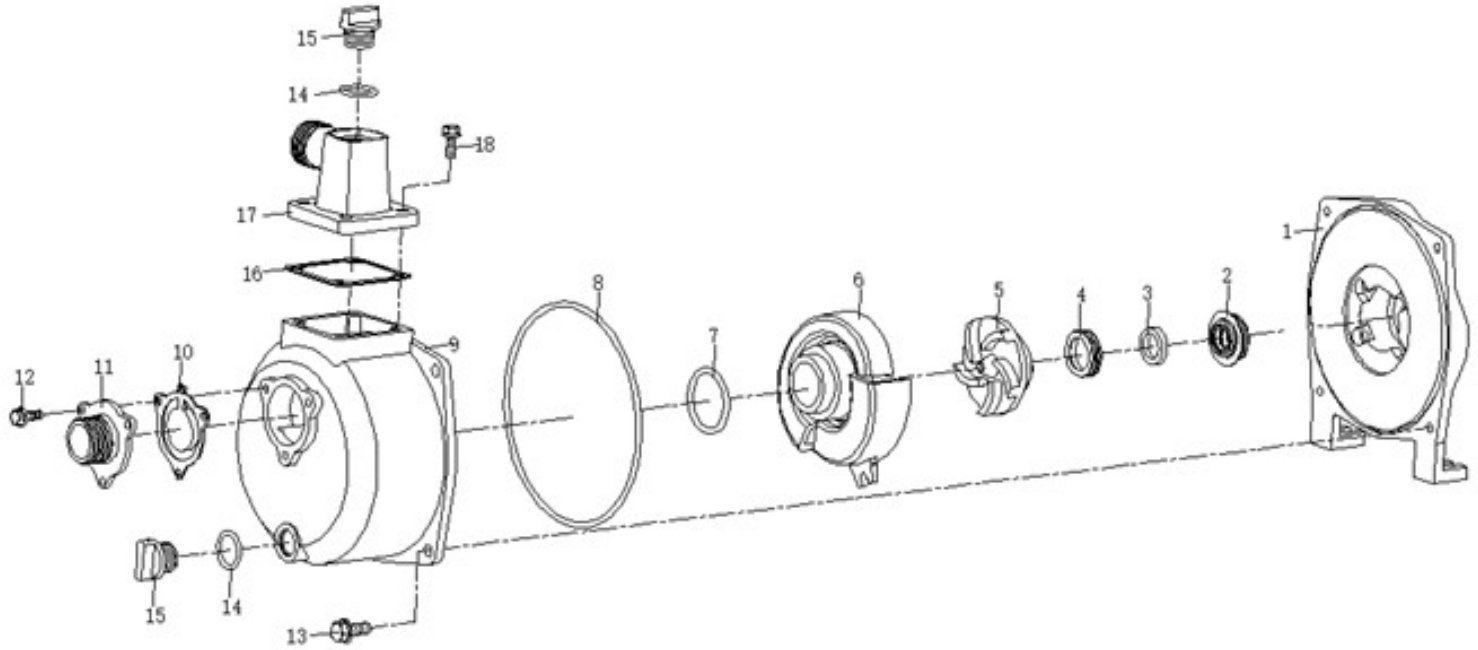

1. Change the oil
When using for the first time, change the oil for the first time after the first month or after 20 hours of use, and then every six months or after 100 hours of use.

2. Maintenance of air filter
Clean the filter element with a non-flammable or high flash point solution and dry thoroughly; then dip the filter element in clean oil, squeeze out excess oil, and reinstall.

3. Spark plug maintenance
Visually inspect the spark plug for obvious wear or cracks in the insulating ring. If there is a problem, replace the spark plug with a new one. Measure the spark plug gap with a plug gauge, the gap is: 0.70-0.80mm. If it does not meet the requirements, the electrode needs to be adjusted to correct the gap and remove the carbon deposits.

4. Storage
If the gasoline engine water pump is not used for a long time, when it is stopped for the last time, the carburetor inlet valve should be closed first, so that the gasoline engine water pump will automatically turn off (if it is not used for a long time, the gasoline in the carburetor will damage the carburetor). Pour clean water from the inlet pipe to clean the impeller chamber until the sediment is removed. Finally, discharge the remaining fuel in the fuel tank and put it in a special container for proper storage. The whole machine should be stored in a cool, ventilated and dry place.

1.LIMITED WARRANTY PERIOD : For a period of six months from the date of Sale / delivery of the product which ever is earlier. 2. LIMITED WARRANTY OBLIGATION : Replacement of defective part(s) by authorized dealer are free of charges. If found defective by reasons of defective material / poor workmanship, parts will be replaced and there will be no value re-imbursement. 3. TERMS & CONDITIONS : a. Claims under warranty will be accepted on submission of Warranty Card duly filled and stamped by authorized dealer together with the original purchase document. : b. Shipping / transportation / Incidental charges incurred in replacing defective parts under warranty shall be borne by the purchaser

WARRANTY null & void if

(i) Lack of maintenance, (ii) Incorrect use of the machine or tampering, (iii) Use of non-genuine spare parts, (iv) Usage of acids, solvents, or any flammable materials, (v) Non-usage of filter water / clear water / soft water & using water above 40°C temperature, (vi) While using the pressure washers to draw water which is contaminated with dust & solvents (eg. paint thinners, gasoline, oil, etc.), (vii) Repair done by unauthorized service people, (viii) Those parts subject to wear & tear due to normal operations and plastic parts, rubber items etc, (ix) Loose connections, faulty electrical fixtures & fluctuations in power supply.

4. Should any failure occur during or after the warranty period, customer does not have the right to interrupt payment / price discount.
5. Incidental or consequential damages like inconvenience commercial loss, loss of tie, mental agony etc.
6. Loss of any nature due to operation or non-operation is not covered under warranty.
7. All free service are at Dealer's service point only.
8. Warranty ceases if service is not done periodically.
9. The attached card should be completed and returned to Ratnagiri Impex Pvt. Ltd. for registration immediately after sale / delivery.
10. The warranty is void unless you register the warranty card with Ratnagiri Impex Pvt. Ltd.
11. The decision of Ratnagiri Impex Pvt. Ltd., in settling the warranty is final in all respects.

DOS & DONTS

1. Always read the instruction manual supplied along with the equipments and understand the correct installation and operating procedures before attempting to use the equipments.

2. It is important to use the personal protection equipments such as head helmet with visor, ear defenders, goggles, safety gloves, cut resistant shoes, trousers and jackets while operating potentially dangerous machines

3. Avoid untrained persons using the equipments. Children must not be allowed to handle these equipments

4. Always use genuine spares and accessories in repairs and usage to derive maximum life of the equipments.

5. Always keep the equipments in good working condition to minimize loss of output as well as to reduce the pollution and save the environment

6.Do not use the machine within range of persons unless they wear protective clothing

7. Do not operate the machine when fatigued or under the influence of alcohol or drugs

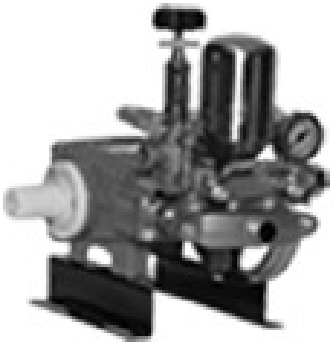

8. When the machine is running, please maintain a constant water supply. Without water circulation will damage the sealing rings of the machine.

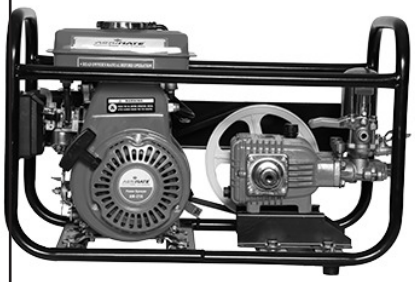

9. For more query kindly contact for our Service Center/Dealer/ franchise
