AM-K435S-25TG-4S-PRO

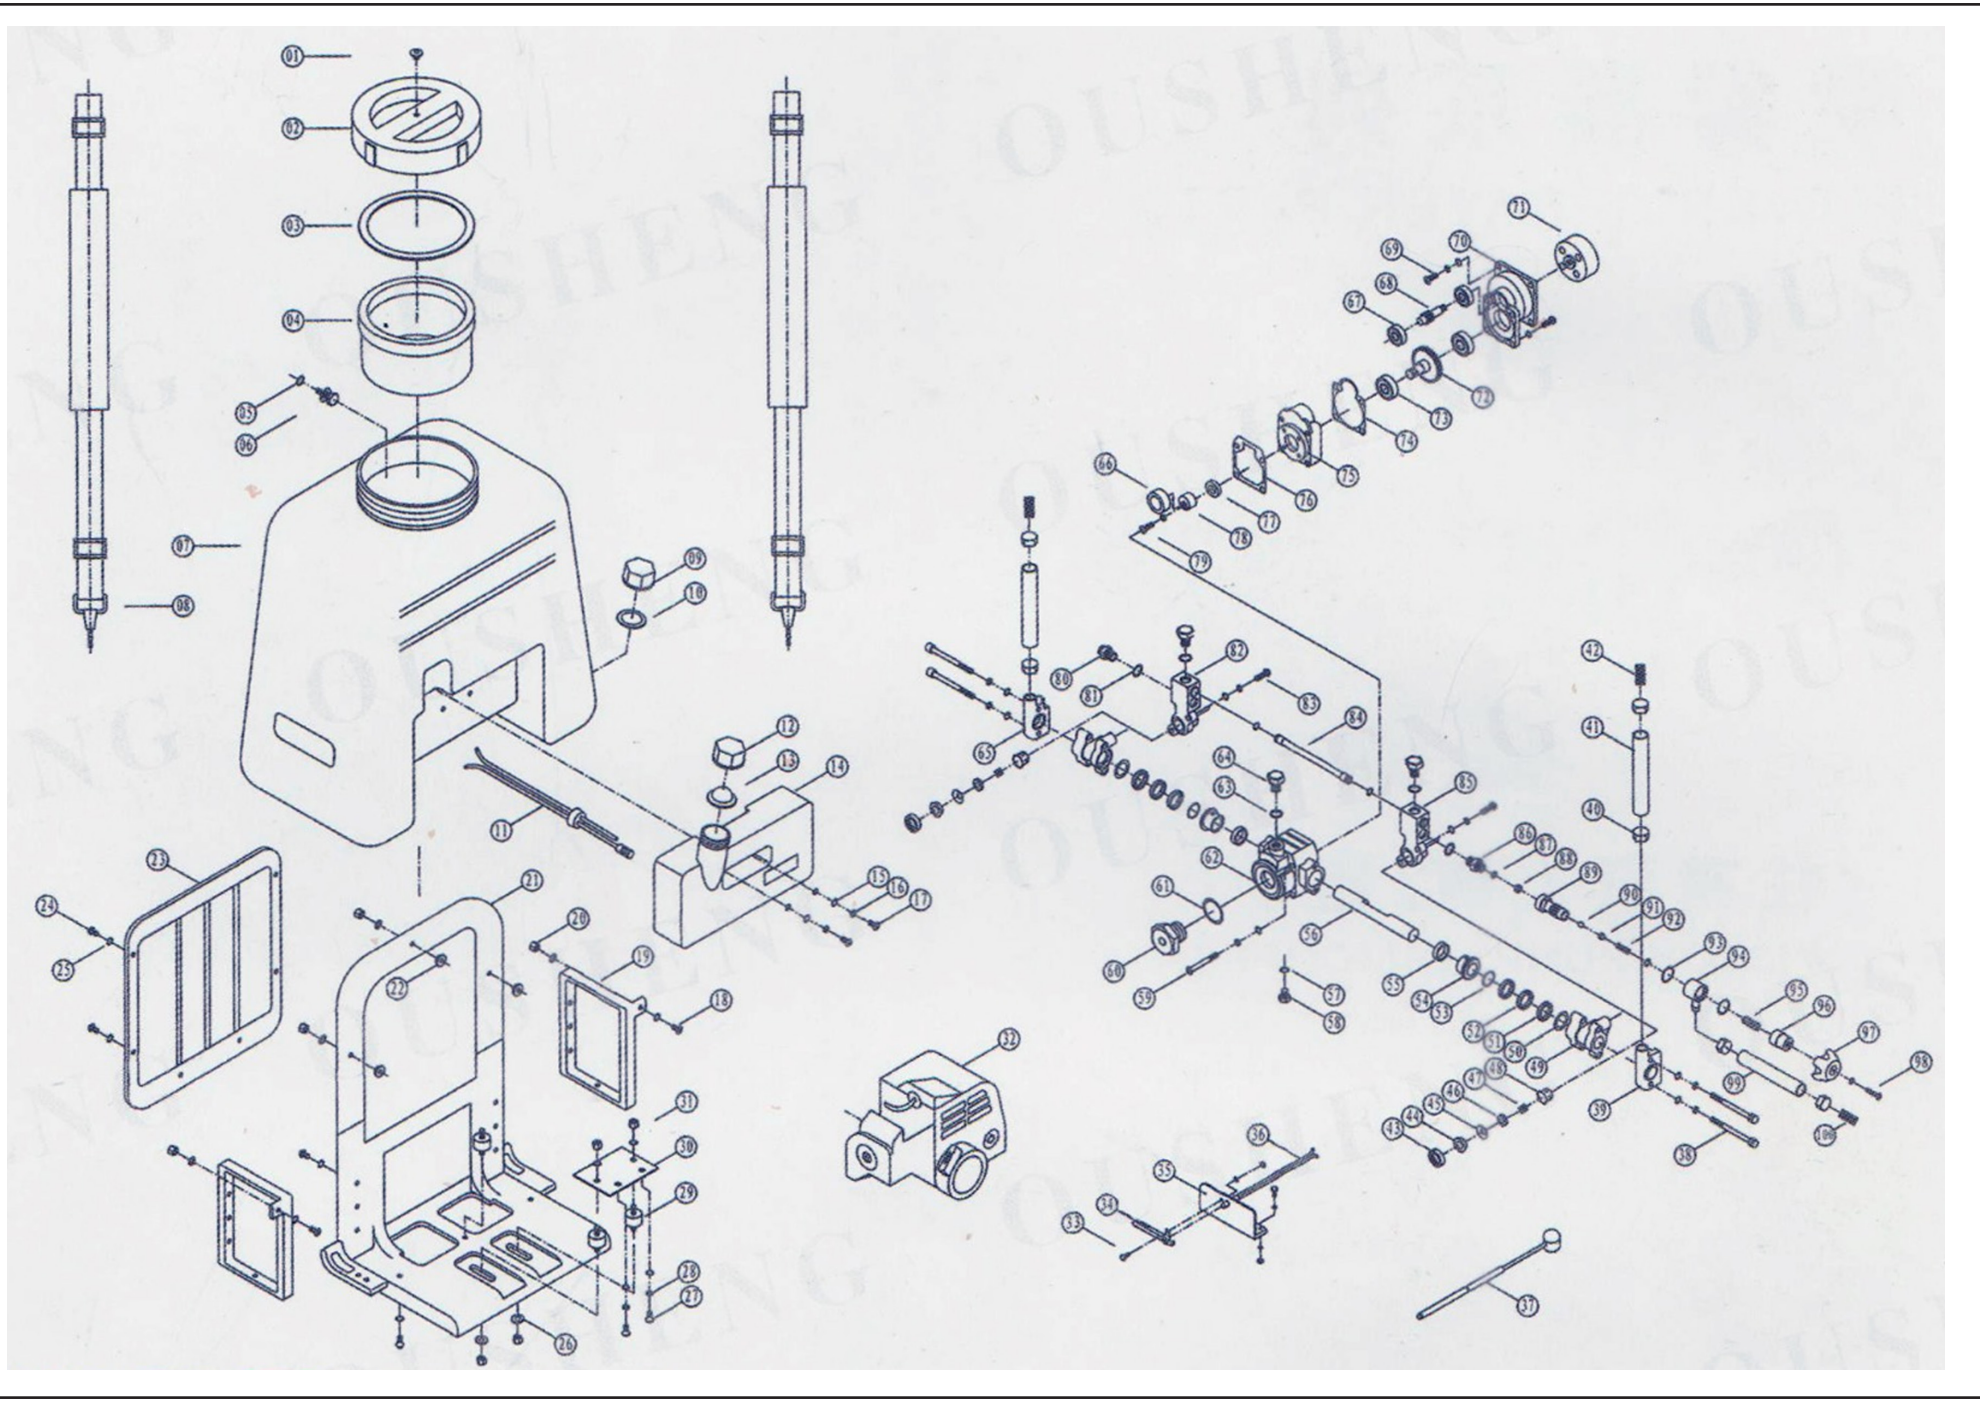

AN ISO 9001 : 2015 CERTIFIED COMPANY

TECHNICAL SPECIFICATIONS

MODEL	AM-K435S-25TG-4S-PRO
Engine	AX-35
Engine type	4-stroke Air cooled, Single Cylinder
Displacement	35.8cc
Power	1.0KW/6500RPM/1.3HP
Carburetor	Diaphragm type
Start system	Recoil starter
Fuel tank capacity	0.75L

Safety and Maintenance Guidelines

- Pre-Use Inspection: Before operation, check the filter and nozzle for impurities and ensure they are clean.
- Regular Cleaning: Clean the machine every three months to ensure optimal performance and safety.
- Post-Use Maintenance: After use, remove any remaining water from the pump and hose to prevent damage.
- Repairs and Warranty: If repairs are required during the warranty period, return the machine to the service centre along with the invoice copy for servicing or replacement.
- Storage and Packaging: Before storing, clean the machine thoroughly. Use secure, closed packaging and store it in a dry place.
- Transportation Compliance: Ensure the machine meets ISTA (International Safe Transit Association) standards for safe transport.

- **Proper Disposal:**
  - Do not dispose of electrical machines as unsorted municipal waste. Use designated collection facilities.
  - Improper disposal in landfills or dumps may release hazardous substances into groundwater, contaminating the environment and posing health risks.
  - When replacing an old machine, retailers are legally required to accept and dispose of it free of charge.

DOS & DONTS

1. Always read the instruction manual supplied along with the equipments and understand the correct installation and operating procedures before attempting to use the equipments.

2. It is important to use the personal protection equipments such as head helmet with visor, ear defenders, goggles, safety gloves, cut resistant shoes, trousers and jackets while operating potentially dangerous machines

3. Avoid untrained persons using the equipments. Children must not be allowed to handle these equipments

4. Always use genuine spares and accessories in repairs and usage to derive maximum life of the equipments.

5. Always keep the equipments in good working condition to minimize loss of output as well as to reduce the pollution and save the environment

6.Do not use the machine within range of persons unless they wear protective clothing

7. Do not operate the machine when fatigued or under the influence of alcohol or drugs

8. When the machine is running, please maintain a constant water supply. Without water circulation will damage the sealing rings of the machine.

9. For more query kindly contact for our Service Center/Dealer/ franchise
