INTERCULTIVATOR/POWER WEEDER
AM-RTP-9P-MAX
ENGINE PART DIAGRAM

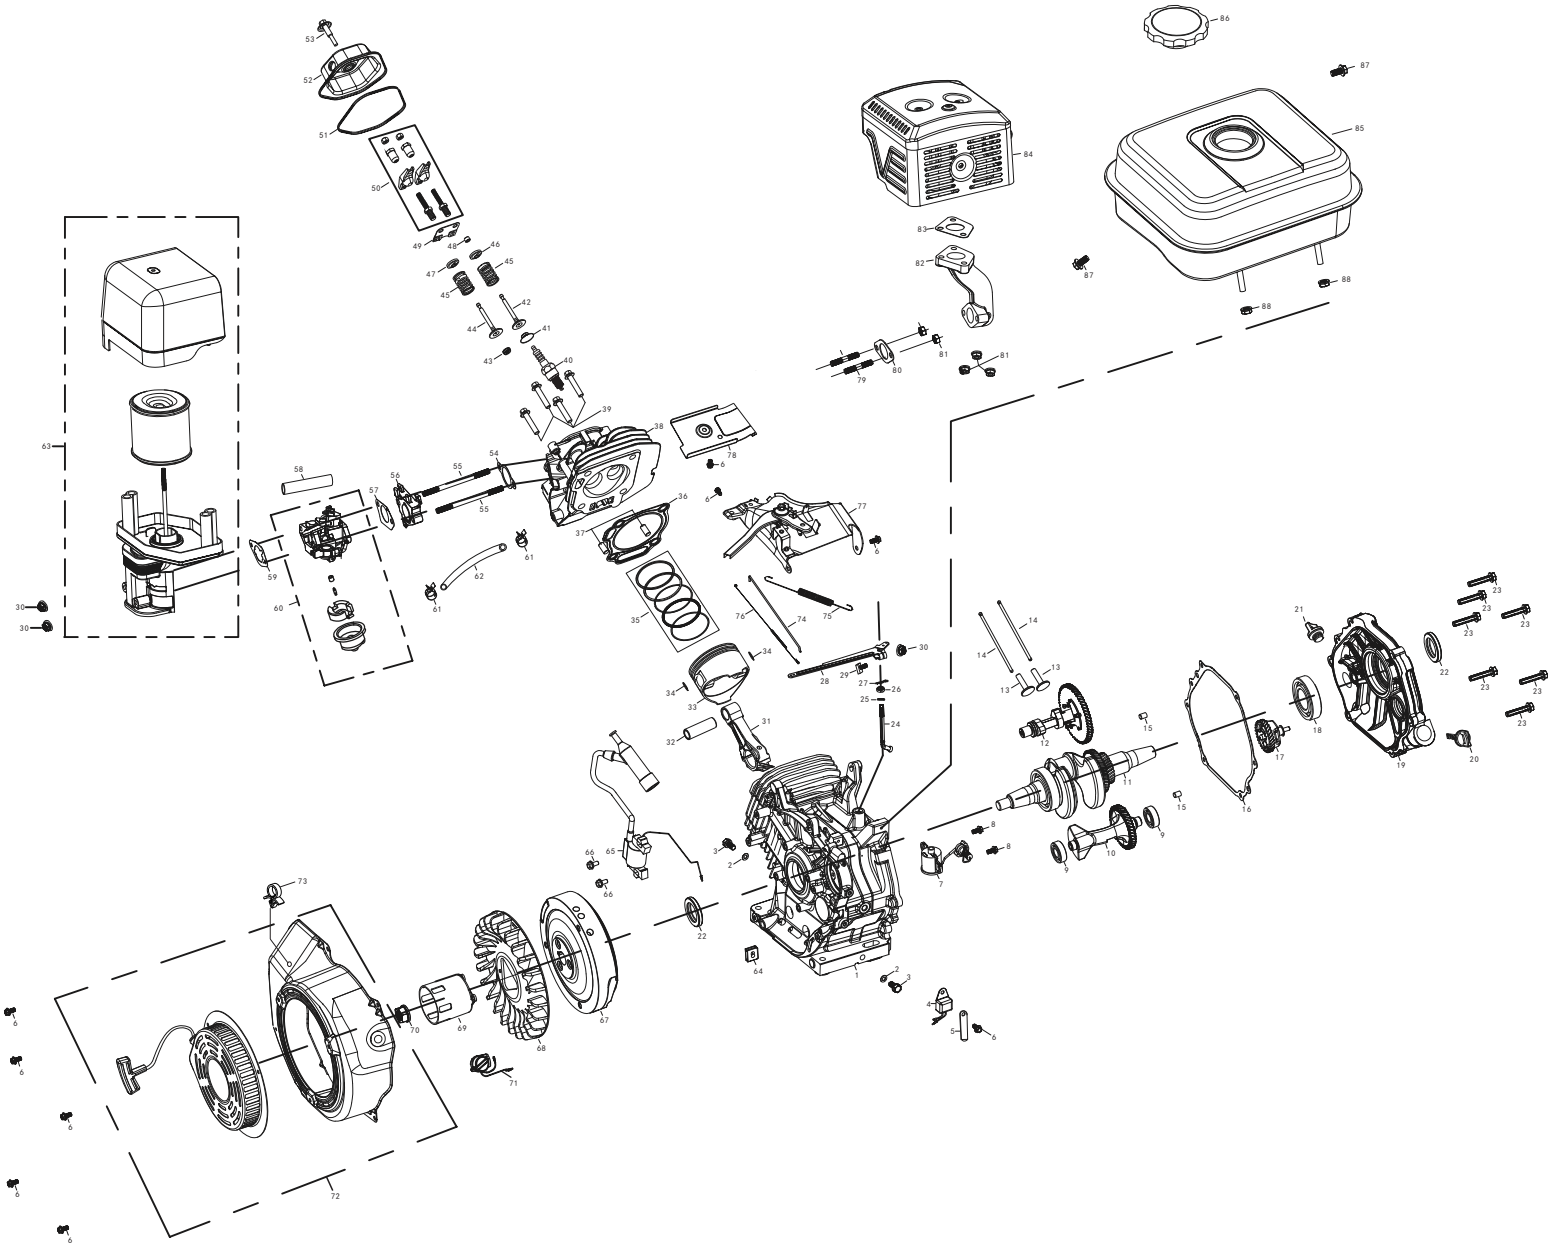

INTRODUCTION

Please persue the contents in the insttuctions manual prio to us this machine, correctly carried out installation and debugging, as well as used it strictly
cording to the working specifications in the instruction manual. The user should be familiar with the safety notices, machine perfo-tmance and maintaonance, etc. The instruction manual will be used in the later use, repair, accessories replacement, ad accesories procurement, so please keep it carefully.

OPERATING INSTRUCTION

1. Securely mount the machine on the frame, ensured the two belt pulleys be parrellel and on the same plane, and the tension of belt be moderate.
2. Add 30~ 40# machine oil upto 1/2 of oil guage plug
3. The connectors of each rubber pipe and high pressure pipe must be locked tightly.
4. Before start the motor, open the jet gun and ball cock and loosen the adjusting screw
5. Start the motor , keeping it at appropriate velocity, waiting there is water ejecting from the jet gun, close the jet gun or ball cock, and adjust screw to let the pressure reach the working pressure.
6. Turn on the ball cock and jet gun, beginning spraying. During the process may properly adjust the adjusting screw to maintain the required pressure
and lock tightly the fly nut at any moment.
7. After spraying, operate the sprayer with clean water for 2`3 minutes to clean the residual interior chemicals.
8. Firstly dismantle the suction hose, waiting there is no water flowing out from the jet gun or the overflow hose, stop the machine and dismantle overflow hose, high pressure pipe and loosen the adjusting screw.

INSPECTION & MAINTAINANCE

For safety use, make sure the machine is cleaned every three months. Before working, make sure to inspect the filter and the nozzel and ensure there is no imurity. After working, make sure there is no water in the pump and the hose.

If the machine needs to be repaired in the guarantee period, please return the machine to the shop. You need to provide the certificate of purchase on order to repair or get the substitute.

Before packing, the machine should be cleaned, then use closed packaging, packaging should be firm. Store the machine in dry place.

For transportation safety. The machine should comply with ISTA.

Do not dispose of electrical machines as unsorted mucnipal waste, use seperate collection facilities.

If electrical machines are disposed of in landfills or dumps, hazaardous substances can leak into the ground water and get into the food chain, damaging your health and well being.

When replacing old machines with new ones, the retailer is legally obligated to take back your old machine for disposals at least free of charge.

DOS & DONTS

1. Always read the instruction manual supplied along with the equipments and understand the correct installation and operating procedures before attempting to use the equipments.

2. It is important to use the personal protection equipments such as head helmet with visor, ear defenders, goggles, safety gloves, cut resistant shoes, trousers and jackets while operating potentially dangerous machines

3. Avoid untrained persons using the equipments. Children must not be allowed to handle these equipments

4. Always use genuine spares and accessories in repairs and usage to derive maximum life of the equipments.

5. Always keep the equipments in good working condition to minimize loss of output as well as to reduce the pollution and save the environment

6.Do not use the machine within range of persons unless they wear protective clothing

7. Do not operate the machine when fatigued or under the influence of alcohol or drugs

8. When the machine is running, please maintain a constant water supply. Without water circulation will damage the sealing rings of the machine.
